

Rayglen's Quality and Payment Guarantee Program

We take the stress out of the quality you receive and eliminate the possibility of non-payment.

Like all aspects of our business whether grain, fertilizer, logistics, or hay, Rayglen strives to make the transactions go as seamlessly as possible and a great experience for all parties.

Our goal with this program is to **PROTECT** both the buyer and the seller.

Buyer Protection: Payment is not released to the seller until the quality agreed upon has been verified.

Seller Protection: Rayglen will acquire funds prior to bales leaving your farm and you will be paid once quality is verified.
